

## Summer Youth Series

### Vision of the Series

We are looking forward to this year's Summer Youth Series to be great. As you look into thinking about attending this event, we want you to know that our goals of this series are: to uplift and encourage one another, sing songs and hymns and spiritual songs, and most importantly to worship our God and Father. The spiritual edification of our youth is our top priority.

---

#### What to expect:

##### **Worship:**

In this worship all individuals present will be involved. There will be no groups, individuals, or bands but solely the collective members present singing together in unison. If you have never experienced this you will be uplifted and encouraged. This is done in what is called acapella. Which in Latin means, "church style or chapel style."

##### **Devotional:**

These devotionals will be given by men of the hosting congregation that will be relevant to the youth of our time. The men who give these talks work very hard to make sure each youth can walk away learning something new and challenging from the scriptures.

##### **Application and Meal:**

The hosting congregation could have an application or activity that will connect to the topic at hand. There will also be a meal prepared for those attending the event.

We hope that you decide to join us this summer!
